

G-PAK

Roy Henderson
employed since 2014

Introducing the future of packing and shipping! The G-PAK is a durable, reusable, advanced packing system. It is a RDB-Rapid Deployment Box, but is also great for all your storage needs. It is 100% reusable and 100% recyclable. Stop wasting money on products for packing and shipping that you will have to dispose of after only one use. The G-PAK is stackable, weatherproof, and also collapses so that you can stack for future use or ship them back efficiently and resourcefully. Save space and re-use them over and over again. It has a built in pallet, drain holes, and is able to be lifted from all sides. (Forklift & Pallet Jack Ready!) The G-PAK can store up to 3000 lbs. Don't waste money anymore on supplies that can only be utilized one time. Go green, save money, and be a part of the future of packing and shipping!

- ▶ 100% Reusable and Recyclable
- ▶ Durable, Stackable, & Weather proof
- ▶ Built-in Pallet and Drain Holes
- ▶ RBD-Rapid Deployment Box
- ▶ Stackable in 40' & 20' containers
